

INDUSTRY LUNCHEON - FEBRUARY 14, 2019 DOCKSIDE REPAIRS OF THE CGC BLUEBELL

SPEAKER: VINCE PISCITELLO, VANPORT MARINE & INDUSTRIAL

Mr. Vince Piscitello, President, Vanport Marine & Industrial

Vince Piscitello has over 30 years of experience in the project-based businesses including, commercial construction, steel fabrication, and ship repair. Over the last decade and a half, Vince has carved out a leadership niche in vessel fabrication and repair having led teams in the successful pursuit and execution of projects from \$1 million to \$45 million dollars. Vince is the President of Vanport Marine & Industrial, a leading top side ship repair, fabrication and industrial services contractor. His duties at Vanport include business development, estimating, and financial oversight.

Vince will be providing a presentation on the 2018 dockside repairs of the CGC Bluebell, an inland buoy tender that services more than 420 river aids per year along 500 miles of the Columbia, Willamette and Snake Rivers. The presentation will include info on the vessel's history, crewing, mission, and the future of the vessel class.
