

# Columbia River Steamship Operators' Association, Inc.

---

*Established in 1922, our focus consistently remains on working to make the Columbia River region increasingly popular for commercial ships and shippers to come and do business. We attribute our successes to the strong networks we have built with our private sector partners and stakeholders, our public sector agencies and regulators, and our Federal and State legislators.*

*The CRSOA welcomes members who supports its mission, goals and objections. Companies benefit by taking advantage of our network, join in our luncheons and other seasonal social events, make use of our members' talent and resources, and adding their voice to that of the CRSOA general membership.*

## Application for Membership
